Newfoundland and Labrador	Not Found		
Nova Scotia	Not Found		
Northwest Territories	Not Found		
Ontario	Normal	2025-09-17	Vehicle exists and currently hasn't any non-normal statuses
Prince Edward Island	Not Found		
Quebec	Normal	No Data	Vehicle exists and currently hasn't any non-normal statuses
Saskatchewan	Not Found		
Nunavut	Not Found		
Yukon	Not Found		

Accident Records

This section lists accident records from government agencies and independent sources in AB, MB, SK, NS, PE, NU, ON, QC.

✔ No accident records found!

This section is based only on the accident records supplied to VinAudit Canada in covered jurisdictions. Other incidents may not have been reported to VinAudit Canada. An independent inspection is recommended to evaluate this vehicle's condition.

Recall Records

This section lists potential recall records based on the vehicle's year, make and model.

No recall records found

Recall records show known safety recalls for the vehicle's year, make, and model. Repairs are usually free at dealerships. No recall records found for this vehicle

Manufacturer Buybacks

This section lists manufacturer buybacks through the Canadian Motor Vehicle Arbitration Plan (CAMVAP).

No manufacturer buybacks found

There is no record of the vehicle being returned to the manufacturer under CAMVAP

Salvage Auction

This section lists historical salvage auction listings.

No salvage auction record found

This section checks if the vehicle was ever listed in a salvage auction, which may indicate prior damage. No records were found, but not all auctions are publicly reported.

Theft Check

This section lists active theft and theft recovery records for this VIN.

No theft or theft recovery records found!

Theft records are typically reported by law enforcement agencies and insurance companies. If the vehicle has been reported stolen and not yet recovered, or if it was previously stolen and later found, these details would appear here.

Sale Records

This section lists historical sale listings from available independent sources.

No sales records found!

Sale records typically include listings from dealerships, online marketplaces, and auction platforms. If the vehicle was sold privately or through sources that do not report sales data, those records may not be available.

US Vehicle History

This section provides a summary and a link to a full report for any matching records in the United States.

Title Records & Title Checks	View for details
Junk / Salvage / Insurance Records	View for details
Lien / Impound / Export Records	No records found
Salvage Auction Records	No records found
Theft Records	No records found
Sale Records	No records found

By obtaining, reviewing and/or using this vehicle history report, you agree to be bound by all of the terms and conditions published online at <https://www.vinaudit.ca/terms-and-conditions>

NMVTIS Consumer Access Disclaimer:

The National Motor Vehicle Title Information System (NMVTIS) is an electronic system that contains information on certain automobiles titled in the United States. NMVTIS is intended to serve as a reliable source of title and brand history for automobiles, but it does not contain detailed information regarding a vehicle's repair history.

All states, insurance companies, and junk and salvage yards are required by federal law to regularly report information to NMVTIS. However, NMVTIS does not contain information on all motor vehicles in the United States because some states are not yet providing their vehicle data to the system. Currently, the data provided to NMVTIS by states is provided in a variety of time frames; while some states report and update NMVTIS data in "real-time" (as title transactions occur), other states send updates less frequently, such as once every 24 hours or within a period of days.

Information on previous, significant vehicle damage may not be included in the system if the vehicle was never determined by an insurance company (or other appropriate entity) to be a "total loss" or branded by a state titling agency. Conversely, an insurance carrier may be required to report a "total loss" even if the vehicle's titling-state has not determined the vehicle to be "salvage" or "junk."

A vehicle history report is NOT a substitute for an independent vehicle inspection. Before making a decision to purchase a vehicle, consumers are strongly encouraged to also obtain an independent vehicle inspection to ensure the vehicle does not have hidden damage. The Approved NMVTIS Data Providers (look for the NMVTIS logo) can include vehicle condition data from sources other than NMVTIS.

NMVTIS data includes (as available by those entities required to report to the System):

Information from participating state motor vehicle titling agencies.

Information on automobiles, buses, trucks, motorcycles, recreational vehicles, motor homes, and tractors. NMVTIS may not currently include commercial vehicles if those vehicles are not included in a state's primary database for title records (in some states, those vehicles are managed by a separate state agency), although these records may be added at a later time.

Information on "brands" applied to vehicles provided by participating state motor vehicle titling agencies. Brand types and definitions vary by state, but may provide useful information about the condition or prior use of the vehicle.

Most recent odometer reading in the state's title record.

Information from insurance companies, and auto recyclers, including junk and salvage yards, that is required by law to be reported to the system, beginning March 31, 2009. This information will include if the vehicle was determined to be a "total loss" by an insurance carrier.

Information from insurance companies, and auto recyclers, including junk and salvage yards, that is required by law to be reported to the system, beginning March 31, 2009. This information will include if the vehicle was determined to be a "total loss" by an insurance carrier.

Information from junk and salvage yards receiving a "cash for clunker" vehicle traded-in under the Consumer Assistance to Recycle and Save Act of 2009 (CARS) Program.

Consumers are advised to visit www.vehiclehistory.gov for details on how to interpret the information in the system and understand the meaning of various labels applied to vehicles by the participating state motor vehicle titling agencies.
